RE: Yard Waste Collection

The City has had numerous calls from residents who have expressed a need for an additional yard waste pickup by the City's trash provider, GFL. Contractually, the City's last yard waste collection is the last Monday in November. Due to the fact that most of the leaves on the trees had not fallen as of that date and the fact that there are numerous sites that have bagged their leaves and placed them at the curbside for collection, the City has negotiated a one-time additional collection of yard waste to be scheduled for **Monday, December 11, 2017**. Please place all yard waste at the curbside prior to the 7:00 a.m. standard collection time.

Please monitor the City's website, www.cityoforchardlake.com and follow us on Facebook for any further information.

Thank you,

City of Orchard Lake
